Career Objective

To grow as a software developer by contributing effectively to a dynamic team, delivering efficient and innovative solutions, and continuously enhancing my skills and professional expertise. I am committed to solving real-world problems and making a meaningful impact in my work.

Education

Bachelor of Engineering in Computer Science

PET Engineering College

- Overall CGPA : 8.58

Higher Secondary Certificate (HSC)

Al-Hudha Matric.Hr.Sec.School

- Final Percentage : 73.33%

Secondary School Leaving Certificate (SSLC)

Al-Hudha Matric.Hr.Sec.School

- Final Percentage : 88.2%

Tirunelveli

2020 – 2024

Tirunelveli

2019 – 2020

Tirunelveli

2017 – 2018

Technical Skills

- Languages:** Java, Python, JavaScript, HTML5, CSS3.
- Frameworks / Libraries:** React JS, React Native, Bootstrap, Tailwind CSS, Spring Boot.
- Databases:** MySQL, PostgreSQL.
- Tools & Technologies:** Git, GitHub, Docker, Postman, RESTful APIs
- Soft Skills:** Good Communication, Problem-Solving, Logical Thinking, Time Management.

Work Experience

Software Developer

Tiara Consulting Services India Pvt. Ltd. | March 2025 - Present

Project: Gulf Oil Lubricants – Distributor & Warranty Management System

- Developed and maintained a monolithic Spring Boot (Java 17) backend with React.js (Vite) frontend for a distributor and warranty management platform.
- Designed and implemented RESTful APIs with JWT-based authentication and role-based access control (e.g., Admin, Retailer, Distributor).
- Integrated MySQL for data persistence, using Spring Data JPA and Hibernate for ORM, and optimized queries for performance.
- Configured Spring Security for secure API endpoints, session management, and token validation.
- Built dynamic UI components in React using Material-UI, Axios for API calls, and React Router for navigation.
- Collaborated with QA to test modules (Product Management, Warranty, Reports) using Postman and manual validation.

Academic projects

Bank Management System

Technologies Used : Java, JDBC, MySQL, IntelliJ IDEA

- Developed a Bank Management System and ATM Simulator System with operations such as account creation, deposits, withdrawals, balance inquiry, mini-statement generation, PIN change, and account closure.
- Designed a secure and user-friendly interface using IntelliJ IDEA to enhance user interaction and accessibility.
- Implemented JDBC and MySQL for efficient database connectivity, secure transaction handling, and data management

Integrated Hospital Management Website

Technologies Used : React, Bootstrap, Spring Boot, PostgreSQL

- Developed a hospital management system with role-based logins for Admin, Doctors, and Nurses
- Implemented core features including patient registration, doctor management, and appointment scheduling.

Certifications and Achievements

- Full-Stack Development Training | Code99 IT Academy (Nov 2024 – Feb 2025)**
Completed intensive hands-on training in front-end and back-end technologies: HTML5, CSS3, JavaScript, React.js, Spring Boot, PostgreSQL , GitHub, and API testing with Postman.
- Java and SQL Certification | HackerRank**
Earned verified badges for completing advanced coding challenges in Java and database queries using SQL
- Programmer Intern | G2G Technologies**
Learned and applied basic web front-end development skills.
